### THE WORK OF SOUL EXPANSION

1. Kingdom expansion is not just wheres but whos.
2. Our real expansion is foremost not about places but people.
3. The Kingdom expands by inviting, including and involving.
4. Yesterday's strategies do not empower today's work to expand tomorrow's business.
5. Empowerment makes producers for expansion and entertainment makes consumers for stagnation.
6. If you are not captivated for expansion you are captured for declension.
7. You stop expanding you start diminishing.
8. If an individual or group is not fired for growth and expansion they become the enemy's comfort zone.
9. Want to expand the Ministry, don't wait to be located but reach out to locate.
10. Using every facet of life to make the Kingdom visible to men is true expansion.
